12. NALIS Systems Librarian Vacancy

NALIS Systems Librarian Vacancy

Applications are invited from suitably qualified individuals for the position of Systems Librarian at NALIS.

[\[View file #5850 online\]](#)

**VACANCY**

Applications are invited from suitably qualified individuals for the undermentioned position:

SYSTEMS LIBRARIAN**Job Summary**

The Systems Librarian is primarily responsible for researching, planning and developing new systems for information access and delivery in support of NALIS' strategic initiatives. This senior officer manages a variety of high-end, robust systems that facilitate search, discovery, and delivery of library data and content throughout the NALIS network. This officer interacts with users and vendor constituencies and provides systems-related staff support.

Key Duties and Responsibilities:

- Provides strategic leadership in systems design, equipment evaluation and selection of new hardware, software applications etc.
- Works collaboratively with library directors and staff of different libraries, divisions and departments in order to provide high-quality search and discovery services that meet the needs of diverse users
- Researches and evaluates new technologies for information access and delivery in response to evolving organisational needs
- Consultants with vendors with respect to the development of useful system tools
- Ensures internal readiness for site preparation, installation, testing and implementation of new systems, within established timeframes
- Manages system upgrades and develops and implements plans and procedures for recovery from system failures
- Monitors and evaluates all systems and related projects under his/her purview
- Provides technical training, coaching, mentoring and talent development of staff
- Collates and analyses data and documents findings
- Prepares project proposals, reports, presentations and budget submissions etc. for strategic decision-making
- Performs related work as may be required

Minimum Qualifications, Experience and Training:

- Training as evidenced by the possession of a Master's Degree in Library and Information Science, a Bachelor's Degree in Library and Information Science or a Post-graduate Diploma in Library Science from a recognised institution
- Degree or advanced certification in Information Technology, Information Systems, Computer Science or related discipline from a recognised institution.
- At least five (5) years' practical and progressive experience in the management of library systems
- In-depth knowledge of at least two (2) integrated library management systems (Library Solution, Sirsi Dynix, Alexandria etc.)
- Skills, and experience in at least three (3) areas of library systems – library technology, search and discovery, web services, digitisation and digital library applications, web content management systems, social media applications, and database design and construction
- Demonstrated understanding of client/server environment, administration of Information Communication and Technology (ICT) networks, and experience with software applications needed to administer application environments
- Demonstrated proficiency and capabilities with personal computers, digital/mobile devices, office software applications in a library environment
- Awareness of current trends in library automation and information technology is required
- Knowledge of controlled vocabularies, and cataloging principles, including MARC and RDA, is recommended
- Project Management experience will be an asset

For consideration, a letter of application and an up-to-date curriculum vitae must be submitted to the attention of the Director, Human Resources Division or via email at recruitment@nalis.gov.tt

No later than October 19, 2022

Please note that only shortlisted applicants will be contacted.

CAREER OPPORTUNITY – WAREHOUSE MANAGER

We are looking for an organized Warehouse Manager to supervise the receipt, dispatching, and storage of merchandise in our warehouse. The Warehouse Manager will oversee picking, storage, receiving, dispatching, security, maintenance, sanitation, and administrative functions. You will oversee, train, evaluate and reward staff. You will ensure the maintenance of company assets.

To ensure success you need to multitask effectively in a fast-paced, dynamic environment, and perform your duties in a manner that maximizes profits. Top applicants are dedicated, competent, and have strong leadership skills.

Key Duties and Responsibilities

- Overseeing, receiving, warehousing, and distribution operations.
- Implementing operational policies and procedures.
- Implementing and overseeing security operations.
- Ensuring effective and safe use of warehouse equipment.
- Ensuring the safety of staff.
- Motivating and disciplining staff.
- Maintaining documentation and keeping accurate records of warehouse activities.
- Maintaining awareness and knowledge of the condition and location of fleet vehicles.
- Assisting with deliveries where required.

Warehouse Manager Requirements:

- 5+ years of Warehouse Management experience.
- Excellent understanding of Warehouse Management procedures.
- Proficient knowledge of inventory and inventory controls.
- Valid drivers' license.
- Ability to operate a forklift effectively.
- Proficient computer skills.
- Outstanding communication skills, both written and verbal.
- Outstanding leadership, organizational, multitasking, and problem-solving skills.
- Strong people skills.
- Available to work extended hours.
