Actuarial Analyst

Requisition ID 57093 - Posted 05/23/2022 - Trinidad & Tobago - Actuarial / Business Analysis

Applications are invited for the position of Actuarial Analyst in the Actuarial Department. The successful candidate will report to the Senior Actuarial Analyst/Manager.

Key Duties and Responsibilities:

1. Participates in monthly and quarterly actuarial valuation.
2. Prepares valuation reports for all regions that SLI operates in.
3. Implements, maintains, and improves the actuarial valuation models in AXIS.
4. Participates in IFRS17 Implementation Project
5. Prepares in depth analysis for various purposes such as sensitivity test, capital adequacy and risk management.
6. Improves the valuation process by identifying inefficiencies.
7. Performs any other duties as assigned.

Education and Experience:

- A Bachelor of Science degree in Actuarial Science, Mathematics, Statistics, Economics or Finance with a strong background in Mathematics including Calculus, Probability and Statistics.
- Good progress towards the Associate level designation along with two to five (2-5) years' experience in a similar capacity.
- Knowledge of the Canadian reserving standards and rules, e.g. CALM, LICAT, MCCSR, etc.
- Proficiency in the use of any actuarial modeling software although experience in the use of AXIS would be an asset.
- A high level of proficiency in the use of Microsoft Office Software with strong Excel skills in particular.
- Good verbal and written communication skills along with good organizational skills.
- Detailed oriented.
- Deadline driven with good time management skills.
- Possesses deep intellectual curiosity and strong analytical skills.
- Previous experience in a financial services environment would be an asset.

Deadline for submission: 6th June 2022

3. Assistant Manager of Maintenance Engineering

Assistant Manager of Maintenance Engineering

[\[View file #1513 online\]](#)

Assistant Manager, Maintenance Engineering

OBJECTIVE

The Assistant Manager - Maintenance Engineering oversees the provision and management of engineering support for maintenance projects on the company's onshore and offshore pipelines and related assets and pipeline corrosion risk management services. The position also provides leadership in coordinating and implementing corrosion protection systems, corrosion, mechanical and civil engineering initiatives and services to maintain company assets at the highest performance levels.

The minimum requirements for the position are:

- Bachelor of Science Degree in Mechanical, Materials or Civil Engineering from a recognized tertiary accredited institution.
- MSc. in Engineering Management, Asset Management or Post Graduate Diploma in Engineering would be an asset
- Registration with the Board of Engineering of T&T (BOETT) or international equivalent Engineering Registration Body recognized by the Board of Engineering of T&T.
- Technical Certifications in related fields of asset integrity / asset management (for example, Corrosion Integrity Management, Non-Destructive Examination, Certified Inspection (coating, vessels, piping, etc.), Fitness For Service/Defect Assessment, Safety Instrumented Systems, Risk Based Inspection, Asset/Pipeline/Facility Integrity Management) by accredited organizations will be an asset.
- A minimum of ten (10) years' technical experience in the Petrochemical or natural gas industry of which a minimum of eight (8) years' shall be in pipeline design engineering, maintenance engineering, maintenance projects, and corrosion risk management.
- A minimum of five (5) years' supervisory experience over maintenance and engineering service.

Closing Date for receipt of applications is: 14/06/2022
